

Please put an end to unwanted fax advertising. At one time we had a fax connected to our home phone line, but no longer do. We continue to be bombarded with calls at all hours of the day and night, only to hear screeching fax tones. The way these work is that if they don't connect on the first time, several more attempts are made within a short period of time. Quite annoying at 2:00 or 3:00 am!!!!!!! Caller ID says only "Unknown Caller", so we have no recourse.
